

Einladung zum Habitationskolloquium

Dr. Astrid Slany

Department of Analytical Chemistry,
Faculty of Chemistry

*Multi-omics analyses of cancer development and progression
under special consideration of the tumor microenvironment*

When: Monday, 25 May 2020, 11:00h

Where: Video Conference (via Moodle BigBlueButton)

REGISTRATION:

If you want to watch the **live stream of the lecture** and/or if you want to participate in the subsequent discussion, **please register until Friday, 22 May 2020 (13h) by sending an email to edv.chemie@univie.ac.at**.

You will then receive a link and further instructions to enter the virtual room on the platform Moodle BigBlueButton on Monday, 25th. **We kindly ask you to enter the video conference about 10 minutes before the talk starts** to ensure a joint opening. Please do not use BigBlueButton while a VPN connection is active. This may cause interruptions.
